& CITRUS FRUIT SQUEEZERS

# PRODUCT PERSONALISATION

GRINDERS AND SQUEEZERS

## TECHNICAL CHARACTERISTICS

### DOUBLE IDENTITY

Cunill are the only mills on the market with the possibility of double branding the trade-mark. They can be personalised on the front of the dispenser and on the back of the mill, so that the brand identity of the company is always in the best possible display position for the customer or consumer.

### OVAL COMMUNICATION

Cunill's oval-designed plaques for easy placement offer the possibility of being able to personalise the same mill with multiple brand names.

The personalisation plaques are designed to offer an image integrated with the rest of the mill.
